

# Steel Low Profile Parts Hopper 1/3 Cubic Yd 2,000 Lb Capacity Blue

**MODEL HOP-LP-N**

Fork Truck Attachments / Low Profile Parts Hoppers

## PRODUCT OVERVIEW

This unique Low Profile parts Hopper has been designed to function as a parts hopper that may be dumped with the assistance of a fork truck. The low profile design allows the hopper to be placed underneath machinery as a catch basin for parts. The newly designed hopper reduces the hazards, inconveniences, and time associated with collecting parts off the floor. Unit rolls smoothly on casters and includes a removable push handle. Once the material is dumped, the hopper will return to the locked position when lowered to the ground. The included safety restraint should be properly secured to a fork truck before dumping.

## KEY FEATURES

- Special low-profile design catches parts under machinery dispensing chutes
- Unique design returns to upright & locked position when lowered to floor
- Safety restraint secures hopper to fork truck
- Two rigid and one locking swivel casters make the unit portable
